ABOUT DAVID & BERNARD

David is a spiritual counsellor and hypnotherapist. He has spent his career investigating the unused potential of the subconscious mind. He is also co-author of international acclaimed book "Hypnosis & Counselling in the Treatment of Cancer."

Bernard is a certified Shamanic healing practitioner with a Diploma in Shamanic Practice. Since then Bernard has also integrated a variety of other subjects and philosophies into his practice, such as Norse Shamanism, Runes, Tarot, and Meditation.

Presently, they have a private practice based in Melbourne. Where their emphasis is on, "experiencing soul" their workshops and therapy are not about ideas, beliefs or complicated theories, but actual experiences that enable people to be more connected to their soul.

ANGELS

Everyone has guides and angels. Connecting with them helps you to receive their wisdom and guidance.

Even though our guides work with us all the time, they can be much more effective if we give them our permission. If you and your angel are working towards the same goal, without conscious communication their ideas of what is best for us can often conflict with our ideas of what we want.

CARDS AND CRYSTALS

Certain cards and crystals can be of great assistance in establishing angelic contact. These 'angel stones' are highly spiritual stones that possess metaphysical properties which can aid one in connecting with angels, spirit guides, and the higher self and raise one's consciousness. The higher one's consciousness is raised, the easier it becomes to establish communication with those residing at higher planes of consciousness, such as angels, guardians, and spirit guides.

We will be urged to shed the "security blankets" so many of us surround ourselves with. This can be anything from addictions to self-limiting thoughts and activities. But at the same time, this can be the most rewarding path you will ever set foot upon.

ANGEL GUIDANCE

Angels will always want us to work towards achieving our full potential. This can mean many different things for each of us. We may be encouraged to alter our lifestyle, or change careers, or work harder and more often on our development.

- Vision quest meditation and shamanic drumming.
- A profound experience of connecting to angels
- An attunement to your guardian angel and the angels that are currently guiding you enabling you to connect with your angels at home.
- Working with angel cards and crystals to enhance your connection and attunement.
- Receive insights, communication, guidance and protection direct from your angels.
